2018

10<sup>th</sup> | MSBSHSE | Percentage: 92.00 / 100.00

## INTERNSHIPS

### RN WebBrand Solutions Pvt. Ltd.

24 Jan, 2023 - 01 Mar, 2023

Web Designer

Key Skills: WordPress HTML5 CSS Javascript

During my internship, I had the opportunity to gain valuable hands-on experience in WordPress development and customization. I worked closely with a team of professionals to create and modify websites using the WordPress platform. My role involved a range of tasks, including theme customization, plugin management, front-end development, understanding customer needs, debugging.

## PROJECTS

### Quiz Website

19 Apr, 2023 - 05 May, 2023

Team Size: 3

Key Skills: HTML5 CSS Javascript PHP MySQL PhpMyAdmin

The project is a quiz website developed using HTML, CSS, JavaScript, PHP, and MySQL. It consists of a registration section where users can create an account by providing their details. The website also includes a login for users to securely log into their accounts. Additionally, there is a separate admin login page for administrators to manage the quiz content and user accounts. The website utilizes PHP for server-side processing, enabling seamless interaction with the MySQL database to store and retrieve user information and quiz data.

### Food Ordering Website

14 Sep, 2022 - 26 Sep, 2022

Team Size: 3

Key Skills: HTML5 CSS Javascript MySQL PHP PhpMyAdmin

Food ordering website is a dynamic platform that allows users to browse and order food. Built using HTML, CSS, and JavaScript for the front-end, the website provides an intuitive and user-friendly interface for seamless navigation and selection. The back-end functionality is powered by PHP and MySQL, enabling secure user authentication, order processing, and database management.

## ACHIEVEMENTS

- Gold Badge in Java on HackerRank
- 4 Star in SQL on HackerRank

## ASSESSMENTS / CERTIFICATIONS

### Foundations of User Experience (UX) Design

Key Skills: Wireframe UX Research UX Design UI/UX
